

# AMERICAN JOURNAL OF OPHTHALMOLOGY

THIRD SERIES FOUNDED BY EDWARD JACKSON

VOLUME 39  
January-June, 1955

---

## EDITORIAL STAFF

DERRICK VAIL, *Editor-in-Chief*

LAWRENCE T. POST, *Consulting Editor*

BERNARD BECKER

WILLIAM L. BENEDICT

FREDERICK C. CORDES

SIR STEWART DUKE-ELDER

EDWIN B. DUNPHY

F. HERBERT HAESSLER

PARKER HEATH

S. RODMAN IRVINE

JAMES E. LEBENSOHN

DONALD J. LYLE

WILLIAM A. MANN

P. ROBB McDONALD

FRANK W. NEWELL

JOHN V. V. NICHOLLS

ALGERNON B. REESE

PHILLIPS THYGESON

M. URIBE TRONCOSO

ALAN C. WOODS

KATHERINE FERGUSON CHALKLEY, *Manuscript Editor*

MILDRED SKINNER, *Advertising and Business Manager*

## COLLABORATORS

CHARLES A. BAHN, *New Orleans*; THEODORE BISLAND, *Washington, D.C.*; EUGENE M. BLAKE, *New Haven*; FREDERICK C. BLOD, *Iowa City*; SYLVAN BRANDON, *Houston*; JAMES W. BRENNAN, *Buffalo*; WILLIAM C. CACCAMISE, *Rochester, New York*; ALSTON CALLAHAN, *Birmingham*; FRANCIS C. CRAGE, *Chicago*; BEULAH CUSHMAN, *Chicago*; LOUIS DAILY, JR., *Houston*; RAY K. DAILY, *Houston*; ALICE R. DEUTSCH, *Memphis*; ORWIN H. ELLIS, *Los Angeles*; IRWIN E. GAYNON, *Milwaukee*; BERTHA T. HAESSLER, *Milwaukee*; DAVID O. HARRINGTON, *San Francisco*; HARRY HORWICH, *New York*; MORRIS KAPLAN, *Denver*; PETER C. KRONFELD, *Chicago*; JOHN C. LOCKE, *Montreal, Canada*; R. T. LOWE, *Melbourne, Australia*; GYULA LUGOSSY, *Budapest*; WALTER MAYER, *Richmond, Virginia*; HARRY K. MESSENGER, *Boston*; BENJAMIN MILDER, *Saint Louis*; YUKIHIKO MITSUI, *Kumamoto, Japan*; ROBERT A. MOSES, *Delavan, Wisconsin*; BENNETT W. MUIR, *Denver*; ERNST SCHMERL, *Toledo*; THEODORE M. SHAPIRA, *Chicago*; JOHN J. STERN, *Utica, New York*; V. TABONE, *Juliano, Malta*; GEORGE S. TYNER, *Denver*; A. URRETS-ZAVALIA, JR., *Cordoba, Argentina*; H. C. WEINBERG, *University Heights, Ohio*.

PUBLISHED BY THE OPHTHALMIC PUBLISHING COMPANY  
664 North Michigan Avenue, Chicago 11, Illinois

## COLOR ILLUSTRATIONS

VOLUME 39

JANUARY-JUNE, 1955

- PLATE 1. Vogt-Koyanagi syndrome. *Figure 3*. Pronounced poliosis of the scalp. *Figures 4 and 5*. Areas of vitiligo. Edgar A. Swartz ..... facing page 493
- RESPONSES of intraocular pressure, blood pressure, and cutaneous vessels to electric stimulation in the diencephalon. *Figures 16, 17, 18, and 19*. Diagrammatic sketches of a portion of the interbrain—sagittal view. Distribution plots showing points stimulated and resultant responses. Ludwig von Sallmann and Otto Lowenstein ..... facing pages 122 and 123
- PLATE 2. Precancerous and cancerous melanosis of the conjunctiva. *Figures 1a and 1b*. Precancerous melanosis. *Figure 2*. Cancerous melanosis involving all of the bulbar conjunctiva except a small area nasally (not shown here). *Figures 3a, 3b, and 3c*. Cancerous melanosis, illustrating the characteristic diffuseness of the lesion. Algernon B. Reese ..... facing page 195
- PLATE 3. Precancerous and cancerous melanosis of the conjunctiva. *Figures 4a and 4b*. Cancerous melanosis manifesting a spontaneous decrease in pigmentation. *Figures 5a-1, 5a-2, 5b-1, and 5b-2*. Tissue cultures. Algernon B. Reese .... facing page 197
- PLATE 4. Precancerous and cancerous melanosis of the conjunctiva. *Figure 6*. Congenital stromal melanosis. *Figures 7a and 7b*. Congenital conjunctival melanosis. *Figure 8*. A section of congenital melanosis. Algernon B. Reese .... facing page 198
- PLATE 5. Fundus changes caused by alterations of the vitreous body. *Figures 1a, 1b, and 1c*. Macular detachment probably due to traction by the hyaloid membrane. *Figures 2a and 2b*. Macular detachment without visible break, probably due to traction by the hyaloid membrane upon the normal vitreoretinal adhesions present in the macular region. *Figure 3*. Fundus view of the upper temporal quadrant in a case showing paracentral chorioretinitis and peripheral retinal detachment. *Figure 4*. Portion of the nasal fundus in a case with inferior retinal detachment. Charles L. Schepens ..... facing page 631

<sup>†</sup> preceding the page number indicates that the paper was published in Part II of the April issue.

# SUBJECT INDEX

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the *February* issue. The dagger (†) preceding the page number indicates that the paper was published in Part II of the *April* issue.

## A

Abducens, electromyographic studies on palsy of, 906  
Abnormalities: See under Congenital Anomalies and under names of various organs and regions

**ABSTRACTS:** 115, 258, 434, 605, 770, 897

1. Anatomy, embryology, and comparative ophthalmology: 115, 434, 605
2. General pathology, bacteriology, immunology: 116, 435, 897
3. Vegetative physiology, biochemistry, pharmacology, toxicology: 118, 436, 605, 770, 898
4. Physiologic optics, refraction, color vision: 125, 258, 442, 607, 772, 901
5. Diagnosis and therapy: 130, 258, 446, 608, 773, 903
6. Ocular motility: 136, 263, 450, 609, 775, 906
7. Conjunctiva, cornea, sclera: 138, 263, 453, 610, 777, 908
8. Uvea, sympathetic disease, aqueous: 142, 264, 456, 612, 778, 910
9. Glaucoma and ocular tension: 143, 266, 456, 612, 779, 911
10. Crystalline lens: 146, 267, 461, 613, 781, 913
11. Retina and vitreous: 147, 269, 463, 613, 782, 914
12. Optic nerve and chiasm: 149, 272, 467, 615, 919
13. Neuro-ophthalmology: 149, 272, 467, 616, 784, 920
14. Eyeball, orbit, sinuses: 151, 273, 469, 618, 786, 922
15. Eyelids, lacrimal apparatus: 152, 274, 471, 618, 786, 923
16. Tumors: 275, 630, 788, 924
17. Injuries: 276, 621, 788, 924
18. Systemic disease and parasites: 277, 622, 924
19. Congenital deformities, heredity: 285, 624, 936
20. Hygiene, sociology, education, and history: 280, 636, 928

**ACCOMMODATION:** convergence and, 129  
during vestibular stimulation, 930  
impairment of, 583

lens subluxation during, 551

Acetanoleamide: See Diamox

**ACTH:** 132

- effect on aqueous, 121
- exophthalmos and, \*146
- in experimental tuberculosis, 448
- in ocular pemphigus, 610
- in office treatment, 100
- in retinitis pigmentosa, 770
- in Sjögren's syndrome, 923
- in uveitis, ocular tension after, 175
- influence on vitreous hemorrhage absorption, 477

Adenoma, of conjunctiva, 453

Age, color sense and, 607

Aged, anesthesia for, 608

epiphora of, 619

Alcohol, action retrobulbar on pigment degeneration retina, 900

corneal damage due to, 121

effect of, on binocular vision, \*44

See also Methanol

**ALLERGY:** 135

- conjunctivitis due to, therapeutic results, 138
- drugs in ocular, 97
- fundus manifestations of, 147
- in experimental tuberculosis, 435
- of pinguecula, 138

Amaurosis, hysteric, 272

in optic neuromyelitis, 272

Amaurotic idiocy, 240

pathology retina and brain tissues in, 874

**AMBLYOPIA:** 608

ex anopsia, glaucoma and, 281

foveal vision in, 446

hysteric, 272

in strabismus, 445

nutritional: See Nutritional amblyopia

visual fields in, 786

Amino acids, free in aqueous, 441

**ANESTHESIA:** 773

for aged, 608

general, 262

hypnotic, 774

intravenous, for infants, 132

in cataract extraction, 782

unilateral blindness during, 447

Aneurysm, carotid, 584

Angiectases, in diabetes, 271

Angioid streaks, pathology of, 269

Angioma, of choroid, 265

of eyelids, 275

of orbit, 275

Angiopathy retinae traumatic: See Purtscher's disease

Aniridia, after cataract extraction, 146

congenital, 280

Aniseikonia, diagnosis of with amblyoscope, 126

testing of, with space eikonometer, 608

Anisocoria, 921

Anisophoria, clinical significance of, 157

Anophthalmos, congenital, 400

**ANTERIOR CHAMBER:** angle of, tumor of, 779

conjunctival implants into, 1165

cotton fibrils in, 131

delayed restoration of, glaucoma due to, tonographic study, 1147

depth changes in glaucoma, 780

epithelial downgrowth into, after cataract extraction,

X-ray treatment in, 888

hyaluronidase injections into (rabbit), 198

puncture, in leprosy iritis, 142

prognostic value of, 265

tumor implant in, effect cortisone on, 435

Anterior segment, photography of, 228

of rabbit eye, \*40

**ANTIBIOTICS:** 134

Biophthal, new combination of, 447

by subconjunctival injection, 771

effect on herpes simplex of broad and medium spectrum, 689

effect of new on herpetic keratitis

in corneal ulcers, 909

in intraocular infections, 94

in vitreous, 442

stability in oil, 438

See also under names of various antibiotics

Antibodies, in aqueous, 435

Anticoagulants, effect on corneal wound healing, 437

in retinal vein thrombosis, 465

Antihistamines, action on isolated iris muscle, 120

zinc and, in eye therapy, 449

**APHAKIA:** adjustment to, 249

bilateral, eikonometry and phoria in, 130

half-glasses for, 238

management of, 67

refraction in, 749

vitreous alterations in, 464

**AQUEOUS:** amino acids free in, 441

antibodies in, 435

corticosteroids in, 871

effect ACTH on, 121

effect osmotic pressure blood on, 459

**FLOW:** carbonic anhydrase inhibition and, 159

influence blood change on, 441

ion concentration variation in, after paracentesis, 517

Magnamycin penetration into, \*214

microscopic findings, in primary (rabbit), 897

in regenerated (rabbit), 897

**OUTFLOW:** after cyclodialysis, 780

in chronic glaucoma, action adrenalin on, 913

resistance to, 772

Schlemm's canal and, 165

rate of, in man, 460

vitamin-C exchange in, 439

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the *February* issue. The dagger (†) preceding the page number indicates that the paper was published in Part II of the *April* issue.

- Aqueous veins, biomicroscopic aspect compared with venous pressure and ocular tension, **793**  
 Arachnoiditis, results of craniotomy in, **468**  
 Arteritis, temporal, **119**  
   eye involvement in, **623**  
   histology of, **378**  
 Artery, ophthalmic, anatomy of origin of, **1160**  
   in hypertension, **624**  
 Arthritis, retinitis pigmentosa, scleromalacia perforans, and **161**  
 Asthenopia, ultraviolet-absorption lenses in, **773**  
 Association for Research in Ophthalmology:  
   auditor's report, **\*209**  
   business session, **\*246**  
   directory, **\*253**  
   officers, **\*253**  
   proceedings of 23rd meeting, Part II, February  
 Astigmatism, **128**  
   refraction in, **751**  
   surgical treatment of, **773**  
   tests for, **dials for, 84**  
 Atomic radiation, lens opacities due to, 4-year study, **285**  
 Aureomycin, in trachoma, **909**  
 Autokinetic movements in dark, **451**

## B

- Ballantyne, Arthur James, **420**  
 Behçet's disease, **456**  
 Bell's phenomenon, after ptosis operation, **617**  
 Bera's infection, in hamsters, **\*203**  
 Beta radiation: See Radiation therapy  
 Biophthal, a new antibiotic combination, **447**  
 Blepharitis, due to *Trichophyton gypsum*, **619**  
 BLINDNESS: due to multiple pterygium, **572**  
   in children, clinical study, **281**  
   in Iceland, prevention and causes, **202**  
   substitute functions in, **928**  
 Blood-Aqueous barrier, after glaucoma operations, **457**  
   influence oscillation and electroshock on, **771**  
   permeability, action dihydroergotamine on, **437**  
 Blood: loss, visual impairment after, **926**  
   pressure, control of, during operation, **609**  
   diurnal variations of venous, ocular tension and, **793**  
   response to diencephalon stimulation, **111**  
 BLOOD VESSELS: cutaneous, response to diencephalon stimulation, **111**  
   influence autonomic drugs on eye, **121**  
   laminated of eye, ocular tension and, **123**  
   of eye, effect oxygen on developing, **118**  
   retrolental fibroplasia and, **119**  
   of retina: See Retina, blood vessels of  
 Books received for review, **114, 257, 433, 604, 769**  
 BOOK REVIEWS:  
   Arkin, Wiktor: *Hydrostatics and Hydrodynamics of the Eye*, **767**  
   von Bahr, G., et al.: *Documenta Ophthalmologica*, **255**  
   Bangert, Alfred: *Behandlung von Augenkrankheiten: Für den praktischen Arzt*, **433**  
   Blank, Harvey, and Rake, Geoffrey: *Viral and Rickettsial Diseases of the Skin, Eye, and Mucous Membranes of Man*, **766**  
   Calassano, O. Marcondes: *Arquitetura do Musculo Ciliar no Homem*, **603**  
   Ciba Pharmaceuticals Products: *The Rauwolfia Story*, **257**  
   Conn, Howard F.: *Current Therapy, 1955*, **766**  
   Drill, Victor A.: *Pharmacology in Medicine*, **604**  
   Duke-Elder, Sir Stewart: *Textbook of Ophthalmology: Volume VII*, **111**  
   Ehrlich, Paul, and v. Behring: *100th Year Celebration of Birth of, 760*  
   Einhorn, Moses: *Hebrew Medical Journal*, **112**  
   Gordon, Dan M.: *The Clinical Use of Corticotropin, Cortisone, and Hydrocortisone in Eye Disease*, **112**  
   Gros, Robert: *La Scleromalacie Perforante et les Maladies qui s'en Rapprochent*, **257**  
   Houssay, B. A., et al.: *Human Physiology*, **767**  
   Jayle, G. E., and Dubois-Poulson, A.: *L'Année Thérapeutique en Ophthalmologie*, **112**

## BOOK REVIEWS (continued)

- Kirby, Daniel B.: *Advanced Surgery of Cataract*, **894**  
 Kyrieleis, Werner: *Klinik der Augensymptome bei Nervenkrankheiten*, **602**  
 Lende, Helga: *Directory of Activities for the Blind in the United States and Canada*, **433**  
 Little, Samuel C.: *Abnormal Movements of the Face*, **433**  
 Loepp, W., and Lorenz, Reinhold: *Röntgendiagnostik des Schädels*, **255**  
 Lyle, Donald J.: *Neuro-ophthalmology*, **769**  
 Moore, Sherwood: *Hyperostosis Cranii*, **768**  
 Nelson, Waldo: *Textbook of Pediatrics*, **113**  
 Proctor, Francis I.: *Foundation: Collected Reprints*, **603**  
 Streiff, E. B.: *Advances in Ophthalmology: Volumes II and III*, **113**  
 Vail, Derrick, and Lindsay, J. R.: *The Year Book of the Eye, Ear, Nose, and Throat*, **895**  
 Verrey, Florian: *Clinique d' l'Humeur Aqueuse Pathologique*, **256**  
 Waife, S. O.: *The Doctor Writes: An Anthology of the Unusual in Current Medical Literature*, **896**  
 Wolff, Eugene: *The Anatomy of the Eye and Orbit*, **411**  
 Wolsterhome, G. E. W., and Freeman, J. S.: *Peripheral Circulation in Man*, **603**  
 Butazolodin, **612**

## C

- Camp-metry, in determining flicker fusion, **126, 127**  
   in neuro-ophthalmology, **785**  
 CARCINOMA: metastatic to eye from breast, **630**  
   of ciliary body, **37**  
   of iris, **37, 612**  
 Carbomycin, in ocular infections, **51**  
 Carbonic anhydrase inhibition, and aqueous flow, **159**  
 Carotid, aneurysm of, **584**  
   thrombosis, collateral circulation through ophthalmic artery in, **469**  
 Carotid-cavernous fistula, **469, 521**  
 CATARACTS: after retinal detachment, **613**  
   alloxan-diabetic (rabbit), **510**  
   anterior internuclear uncinata, **268**  
   atopic dermatitis and, **462**  
   complicated, operation of, **268**  
   congenital, herpes zoster as cause of, **157**  
   conical cornea and, **280**  
   lenticonus, and, **462**  
   cysts, lipomas, and, **624**  
   discission operation for, **782**  
   cortisone in, **462**  
 EXTRACTION: **613, 782**  
   aniridia after, **146**  
   as office procedure, **715**  
   choroidal detachment in, **463**  
   complications of, **462**  
   corneal turgescence after, **462**  
   cure in, simplified administration of, **607**  
   delayed anterior chamber restoration after, glaucoma study in, **1147**  
   diamox in wound healing after, **86**  
   epithelial downgrowth after, X-ray treatment in, **868**  
   extracapsular, **613**  
   cortisone in, **462**  
   incisions in, **268**  
   intravenous anesthesia in, **782**  
   iris inclusion with, **71**  
   iritidocyclitis and, **268**  
   sutures in, **269, 461**  
   preplaced scleroconical, results of, **843**  
   symposium on, **781**  
   value conjunctival flap in, **81**  
 Fluid movement in lens with, **461**  
   formation, and diabetes control (rat), **462**  
   galactose, effect coarboxylase on development of, **898**  
   hypermaturation, lens capsule rupture in, **401**  
   in myotonic dystrophy, **913**  
   ionizing radiation, **607**  
   morgagnian, **401, 573**  
   radiation, **285, 607**

# SUBJECT INDEX

V

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the *February* issue. The dagger (†) preceding the page number indicates that the paper was published in Part II of the *April* issue.

## CATARACTS (continued)

- retinal detachment, atopic dermatitis, and, 462
- self-cure of, 461
- senile, cataractogenic factor in urine of patients with, 125
- ultraviolet absorption of, 899
- surgery of, complications of, 914
- Chemotherapy of eye tuberculosis, 758
- Chiasm, syndrome of, 616
- progress of, 149
- Chicago Clinical Conference, 599
- Chicago Ophthalmological Society, 239, 586, 742
- Chickenpox, uveitis in, 911
- CHILDREN: blindness in, clinical study of, 281
- orbital cellulitis in, 618
- reading problems in, 445
- school: visual screening test for, 369
- visual study of, Danbury, Conn., 527
- Chloroma, exophthalmos in diagnosis of, 276
- Chloromycetin, in ophthalmology, 118
- Chlorpromazine, 110
- Cholesteatoma, of orbit, 786
- Cholesterinosis, 131
- Choriocapillaris, retinal dehiscence in disturbances of, 911
- Chorioretinitis, Jensen's, visual fields in, 614
- slitlamp study of, 465
- toxoplasmic in adult, 911
- CHOROID:
  - angioma of, 265
  - detachment of, after retinal detachment operations, 466
  - in cataract extraction, 265
  - placenta therapy in, 365
  - metabolism of, after placenta extract, 770
  - metastasis to, of bronchial adenoma, 33
  - vascular anatomy of, 434
- Choroideremia, electroretinogram in, 166
- Choroiditis, tuberculin treatment of, 653
- unilateral, 142
- Choroidopathy, 456
- Ciliary body, carcinoma of, 37
- Coats' disease, 574
- Cochlea, changes induced by tobacco, 898
- Coffee, influence on ocular tension, in glaucoma, 700
- in normal eyes, 700
- Cogan, David Glendenning, \*2
- biographical data, \*4
- publications of, \*5
- remarks made on acceptance of Proctor Medal Award, \*3
- Collagen tissues, disease of, ocular changes in, 279
- heat injury to, 608
- Coloboma, of uveal tract, 586
- Color blindness: dichromatopsia, exercises for, 442
- tests, H-R-R polychromatic plates, 444
- Color sense, age and, 607
- Color vision, branched schema pathway for, \*8
- color printing and, 902
- cone participation in, \*24
- Compensation, for ocular injuries, 929
- in United States, 821
- CONGENITAL ANOMALIES: aniridia: See Aniridia
- cephalic malformations, 928
- gonioscopy in, 626
- of cornea, 626
- platybasia and Arnold-Chiari malformation, 149
- retinitis pigmentosa and, 927
- vascular, syringomyelia and, 728
- CONJUNCTIVA: adenoma of, 453
- blood vessels of, 453
- bulbar, blood vessels of, 277
- lymphatics in, 260
- vascular bed of, in toxemia of pregnancy, 455
- cancerous melanosis of, 196
- dermoid of, 141
- epithelioma of, 777
- implants of, into anterior chamber, 1165
- lymphatics in bulbar, 260
- precancerous melanosis of, 196

## CONJUNCTIVA (continued)

- tuberculosis of, 454
- tumors of, 619
- CONJUNCTIVITIS: 611
- allergic, therapeutic results, 138
- due to molluscum contagiosum, 302
- gonorrheal, 747
- influence of age on, 560
- phytotherapy of, 611
- CONTACT LENSES: 750, 773
- ability to tolerate, 128
- diagnostic, 906
- for underwater seeing, 127
- in conical cornea, 607
- CONVERGENCE: accommodative, 903
- accommodative response in asymmetric, 129
- during vestibular stimulation, 920
- proximal, 136
- Corepraxy, 189
- CORNEA: calcium affections of, 453
- changes in cystinosis, 263
- in stone masons, 454
- CONICAL: cataract and, 280
- contact lens in, 607
- iridoschisis and, 456
- lenticonus, cataract, and, 462
- military service and, 263
- pathology of, 909
- crystals of, appearance, 120
- damage to, with alcohol, 121
- with tear gas, 264
- DYSTROPHY: crystalline, 454
- hereditary, classification of, 138
- treatment of, 138
- juvenile, 612
- marginal, 777
- effect oxygen on new vessel growth in, 899
- elasticity of, 811
- in disease, 817
- epithelium, mitotic activities of, 124, 441
- wound healing activities of, 124, 441
- erosions of, treatment, 610, 778
- findings in, in ichthyosis, 575
- growth of, in tissue culture, \*242
- guttata, 611
- lesions of, ultrasonic therapy in, 437
- leukoma of, corneal transplantation in, 139
- malformations of, 636
- melanoma of, 454
- mucoids of, 118
- mycoses of, 138
- patency of openings in, anterior to plas. discs, \*185
- penetrating injuries of, 742
- phosphatase of, 771
- pulse wave of, 449
- trephining of, 446
- turgescence of, after cataract extraction, 462
- ULCERS of: antibiotics in, 909
- Varidase to treat, 455
- vitamin A in healing of, 777
- vascularization of, X-irradiation in, 141
- vitamin C in fixed cells of, 439
- wounds of, action cortisone on, 606
- action Theophrine on, 606
- action vitamin B<sub>12</sub> on, 606
- action vitamin H<sub>1</sub> on, 606
- effect anticoagulants on healing of, 437
- effect vitamin T on, 119
- CORNEAL TRANSPLANTATION: 455
- experimental in rabbits, 454
- in corneal leukoma, 139
- indications for, 61
- penetrating, complications of, 141
- late results of, 610

### V

- Varidase (Streptokinase-streptodornase), in corneal ulcers, 455
- Vascular,
  - disease, incidence in glaucoma, 911
  - new theories of, **342**
  - system, anomalies of, with syringomyelia, **728**
- Vasodilator drugs, effect on electroretinogram, 439
  - in retinal vein thrombosis, **465**
- Vasomotor neuroses, **8**
- Vernal catarrh, electrophoresis of blood in, 456
  - spleen irradiation in, **264**
- VIRUS: diseases in pregnancy, 927
  - medication in, **91**
  - mumps, experimental intraocular infections with, **579**
  - trachoma: See Trachoma
- VISION: changes in, in exophthalmos, 618
  - effect of alcohol on binocular, **\*44**
  - near, new way to express, 127
  - recovery of, after rupture of globe, 621
  - stereoscopic, basis of, **445**
- Visual acuity, effect high altitude on, 901
  - in retinitis pigmentosa, after dicumarol, **46**

### Vision (continued)

- Visual fields, changes, in myopia, 136
  - defects, in glaucoma, **458**
  - in amblyopia of beri-beri, **786**
  - in Jensen's chorioretinitis, 614
  - in retinitis pigmentosa, after dicumarol, **46**
- tests, with binocular fixation, **566**
- vertical asymmetry of isopters and, 129
- Visual pathways, development of, 434
- Visual purple, effect irradiation on, **849**
- Visual screening, of school children, in Danbury, Conn., **527**
  - test for, **369**
- Visual skills, ACA ratio to measure, 280
- Visual training, motion pictures in, 130
- VITAMINS:
  - A: in healing corneal ulcers, 777
  - B<sub>12</sub>: action on corneal wounds, 606
  - C: exchange in aqueous, 439
    - in fixed cells of cornea, 439
    - metabolism, in lens, **440**
  - D: excess of, calcified scleral nodules due to, **458**
    - intoxication, keratitis due to, 139
  - H: action on corneal wounds, 606
  - T: effect on corneal wounds, 119

### VITREOUS:

- alterations, fundus changes due to, **631**
  - in aphakic eyes, **464**
- antibiotics and, **442**
- attachments, during eye movements, 434
- biomicroscopy of, **464**
- dynamics, during eye movements, 434
- edema of, **83**
- foreign bodies in, management of, **752**
- hemorrhage, absorption of, **677**
- nitrogen of, in retinal degeneration, 772
- prolapsed, sequelae of, **1100**
- treatment of, **1100**
- properties of, dependent on hyaluronic acid, **1100**
- studies on, **1100**
- synchysis of, **744**
- transplantation of (experimental), 124
- vascular veils of, **742**
- X-ray diffraction of, 124
- Vogt-Koyanagi syndrome, precipitated by lens extraction, **488**
- Voluntary ocular fibrillation, **78**

### W

- Wills Eye Hospital, 7th clinical conference, **759**
- Wilson's disease, fundus changes in, **269**
- WOUNDS: corneal, effect vitamin T on, **119**
  - healing of, sutured limbal, **859**
  - strength of eye, study of, **859**

### X-Y-Z

- Xanthoma, **273**
- X-RAYS: diffraction of vitreous, 124
  - photography with air injection, **360**
  - therapy, in congenital lesions, **609**
  - in corneal vascularization, 141
  - in epithelial downgrowth, **868**
  - visualization, with air injection, **274**
- Yale University Clinical Conferences, **245**, **749**
- Zygoma, fractures of, involving the orbit, **183**
